Applications for registration must be made upon blanks furnished by the Board, and must be accompanied by two photographs of the applicant; said photographs must be size $3\frac{1}{4}$ by $4\frac{1}{4}$ inches. One of the photographs must be certified by the dean or registrar of the medical school from which the applicant is graduated, or by a person authorized to administer oaths, and who is known to this Board. All applications, together with the required fee of \$25.00, and the required vouchers, must be filed not less than seven days before the date of examination.

On receipt of an application properly executed, a ticket of admission is issued to the applicant, showing his application number and the date and place of the examination. One of the photographs submitted with the application is also returned with the card, and the number of the application is designated on the photograph, and both card and photograph must be presented by the applicant at the time of the examination. No one is admitted except by card bearing date and place of the examination. Cards are issued to rejected applicants entitled to a re-examination upon payment of a fee of \$3.00, when applied for not later than Tuesday of the week next preceding the date of an examination. Three examinations yearly are provided by law, beginning respectively, on the second Tuesday in March, July and November.

The examinations are conducted in the English language only as required by law, and are intended to cover substantially the instruction given in the high-grade medical schools in this country. The subjects on which the examinations are principally conducted are anatomy and histology, pathology, bacteriology, surgery, obstetrics and gynecology, diagnosis and therapeutics, pediatrics and toxicology, psychiatry, biology, chemistry and physics.

The Board has been in actual session seventeen days; has conducted thirty-one hearings; revoked two certificates of registration, suspended five and restored five. One physician has been placed on probation. Two cases have been placed on file and two dismissed. In fifteen cases either no action has been taken or cases not completed. The time given by the individual members of the Board in rating examination books is not included in the seventeen days devoted to Board meetings.

By vote of the Board, the Chairman and Secretary have been empowered to hold conferences in certain instances with physicians relative to whom complaints have been made in order to ascertain if Board Hearings are necessary. In this manner, the time of the members has been saved as well as a financial saving to the State.

REGISTRATION OF CHIROPODISTS.

The Board has examined twenty-nine applicants for registration this year, twenty-seven of whom were registered on first examination. Each examination has occupied one full day. The written exercises are conducted in the State House, and the practical demonstrations under the supervision of Messrs. Kenison and Pettingill at the School of Chiropody. Each applicant is required to provide his own equipment for the practical work and to furnish a patient upon whom to demonstrate his fitness for practice.

During the year, Drs. Knowlton, Vaughan, and Sylvester have represented the Board of Registration in Medicine, and the Messrs. Kenison and Pettingill the chiropodists in this work.

There were 472 chiropodists who took out annual renewal registration certificates for the year 1930.

A list of the physicians and chiropodists registered during the year will be found in the Appendix.

Respectfully submitted,

CHARLES P. SYLVESTER, M.D.,
Chairman.
